5 Blockquote & Alerts

"Any fool can write code that a computer can understand. Good programmers write code that humans can understand."

— Martin Fowler

Info: Pastikan semua aset CSS di-inline atau diakses melalui URL absolut agar PDF converter bisa me-render style dengan benar.

Success: Konversi berhasil! File PDF telah disimpan ke direktori output.

Warning: Beberapa font custom mungkin tidak di-render jika tidak di-embed atau diakses via CDN.

Error: Koneksi ke printer gagal. Pastikan QZ Tray sudah berjalan di background.

Watermark Test: Dokumen ini mengandung watermark teks "CONFIDENTIAL" yang dirender menggunakan CSS `position:absolute` + `rotate` + `opacity`. Pastikan PDF converter dapat me-render positioning absolute dengan benar di dalam container relatif.

Ini juga menguji rendering teks semi-transparan (opacity rendah) pada background putih.
